Subject: 4th Quarter Water Monitoring

Pam,

A total of 141 samples for the 4th Quarter Water Monitoring at Skyline mine have been uploaded to the 'Pipeline' and are ready for submittal to the Electronic Database.

Steve - there are a total of four (4) errors in samples that need to be corrected. This is a re-occurring problem in the data requirements for site UPDES-001.

Total Iron is erroneously requested on UPDES-001 on 11/9, 11/21, 12/12, and 12/29. T-Fe is required only twice monthly.

Also, isotope data for the 4th Quarter is still not available and will be uploaded at a future date.

Call if you have any questions or comments,

Gregg A. Galecki

Environmental Coordinator

Skyline Mines,

Canyon Fuel Company, LLC

(435)448-2636
